

! WARNING

PLEASE READ ALL INSTRUCTIONS BEFORE ATTEMPTING INSTALLATION

SAFETY: This fixture must be wired in accordance with the national electrical code and applicable local codes and ordinances. Proper grounding is required to insure personal safety. Carefully observe the grounding procedure under installation section. All work should be done by a qualified electrician.

> **RISK OF ELECTRIC SHOCK** - Disconnect power at fuse or circuit breaker before installing or servicing.

> **RISK OF PERSONAL INJURY** - Fixture may become damaged and/or unstable if not installed properly. Tighten all fixture components to their recommended torque values.

WARNING: Make certain power is **OFF** before starting installation or attempting any maintenance.

INSTALLATION

Fig 1

1. Install standard junction box base on the wall.
(PS: Junction box is not included)

Fig 2

2. Use the Hex Wrench to loose screws and take apart the mounting bracket from fixture.

Fig 3
