

INSTALLATION INSTRUCTION

Arbor LED Bollard

Safety Instruction

READ CAREFULLY BEFORE INSTALLING FIXTURE. PLEASE KEEP THIS MANUAL FOR FUTURE USE.

Fixtures must be wired in accordance with the National Electrical Code and all applicable local codes. Proper grounding is required for safety.

This product must be installed in accordance with the application code by a person familiar with the construction and operation of the product and the hazards involved.

Make certain power is off before installing or maintaining fixture.

Check that voltage is compatible with fixture driver. Use approved connectors for all electrical connections.

Maintenance Caution

Review the wire connection before beginning, and make sure fixture is grounded properly.

For lighting controls, follow control instructions carefully.

Turn power off and wait for fixture to cool before performing maintenance.

Maintenance must be done by professionals.

ACCESSORY PACK

WIRE NUT (3)

Anchor Bolt (1)

L-TYPE WRENCH (1)

WIRE CONNECTION

Universal voltage permits operation at 120-277VAC, 50/60 Hz.

Make the following Electrical Connection:

1. Connect the voltage supply line to ACL in Black.
2. Connect the voltage supply Neutral to ACN in White.
3. Connect Green ground lead to the supply ground lead.

INSTALLATION

WARNING

1. Risk of injury or damage. Make certain power is OFF before installing or maintaining fixture.

INSTALLATION

Step 1. Make sure the concrete base is suitable for the bollard load.

Step 2. Install Anchor Bolts into concrete.

Step 3. Ensure that the conduit (customer supplied) exits the concrete in the center of the anchor bolts.

Step 4. Loosen the Set Screw (4) with an L-type Wrench (supplied), and remove the Bollard Base of the Bollard.

Step 5. Place the Bollard Base over the Anchor Bolts and tighten all the Nuts and Washers.

Step 6. Be sure the supply leads extend far enough to make wire connections with waterproof connectors (by others).

Step 7. Slide the fixture over on the Bollard Base.

Step 8. Replace the Set Screws (4) to secure the fixture to the Bollard Base.
